QUESTIONS AND ANSWERS

How can I be admitted for rehabilitation or skilled nursing at The Green, The Park, or The Village?

We are here every step of the way to help make your admission process as stress-free as possible. The first step is to contact our Centralized Admissions Office at (716) 484-6695. Our experienced and caring staff will walk you through the process, answer all of your questions, and offer helpful advice to assist you in making a decision that meets your individualized needs.

Is there availability for rehabilitation and skilled nursing care?

We always strive to meet the needs of those we care for. We typically have availability and will work with you to determine the best solution. Many of our residents are currently completing short-term stays in each of our communities and returning to their homes. This creates regular openings for new residents in need of rehabilitation and skilled nursing care.

How will my care be paid for?

Our communities have established contracts with several insurance companies who fund care in our facilities. Our team, which includes admissions, social work, and finance, will work together to find a solution that works best for you. Our rehab and skilled nursing facilities are fully certified by Medicare and New York State Medicaid. In order to ensure compliance, we are regularly inspected by regulatory agencies.

What do I need to bring?

Our goal is for your comfort and we encourage residents to wear comfortable clothing. We have no specific dress code requirements and suggest you initially bring three to four changes of machine washable clothing. For your convenience, we offer a free in-house laundry, an in-house pharmacy, all basic toiletries including incontinent and medical supplies. Our in-house pharmacy can supply all of your prescriptions. For your ease, we will attach a small, iron-on printed label to your clothing for easy identification. For additional comforts, you may bring your own flat-screen television (if you desire one in your room). Cable services are furnished free of charge. Telephone service is also provided at no cost, except for long-distance charges. You are also welcome to bring your cell phone. Some rooms come pre-equipped with televisions and phones primarily in the rehab areas.

Is smoking permitted?

No. Heritage Ministries is committed to your care and health, and as such, all of our facilities are *tobacco-free* campuses. Residents and visitors are not permitted to smoke on our premises. No tobacco products of any kind are permitted in our facilities; including but not limited to chewing tobacco, snuff, cigarettes, pipe, and vaping.

Is a physician available on the premises?

Yes. Our in-house physician directs our medical staff and is available to see residents in each Heritage location. Our rehab and skilled nursing communities also employ full-time nurse practitioners and contract with Optum. Your personal physician is also permitted to see you within our communities.

When can I have visitors?

Preferred visiting hours are 8am-7pm daily for normal visitation. Children age 16 and under must be accompanied by an adult. We also welcome your pet if an immunization record is received prior to the first visit. They must also be on a leash or confined and supervised at all times. Please see a receptionist for further information about pet visits. Each location can provide information about the current Visitation Guidelines, as advised by the NYS Department of Health.
